

We Restore,
You Recover™

Free Mould Talk... You Are Invited!

Lake Manitoba Cottage residents are invited to attend our free seminar on The Fungus Amongus sponsored by Rainbow International Restoration and Cleaning®.

Successful Remediation of The Fungus Amongus in Winnipeg

The Successful Remediation of the Fungus Amongus seminar provides an overview of fungus (mould) development as a consequence of water damage to a structure and how it affects the repair process and the health of the occupants in your home.

Home owners will obtain information they can use to protect the health, welfare, and safety of their family, and to reduce the cost of a loss from fungi (mould) contamination that results from a loss such as water damage.

Date: June 20, 2012

Time: 5:15 PM - 6:15 PM

**Location: Charleswood United Church
4820 Roblin Boulevard
Winnipeg, MB, R3R 0G6**

What you will learn:

- Overview of what fungus (mould) is and how to identify it
- Understand fungus remediation protocol and protection
- Discuss regulations and relate them to industry standards.
- Understand information that can be used to protect the health, welfare, and safety of the home owner, and reduce the cost of a loss from fungi (mould) contamination that results from water damage.
